

“How to end autism and other epidemics”

You can help!

First identify the problem

Is it aluminum in vaccines? The first poke is mandated by the Center for Disease Control (CDC.gov) the day born and two more by 6 months. J.P. Handley cites 900+ sources: “The inflammatory responses caused by aluminum additives in the brain caused an increasing number of small children with developing brains *to become autistic*”. Robert F Kennedy Jr. states: “J.B. Handley has led the fight against the Pharma Cartel to force the issue and expose the lies behind the vaccine policies that have created an epidemic of chronic disease among our children (see <https://vaxinsider.com/the-aluminum-autism-link/> and www.keepphopealive.org. For more on J.P. Handley do a search under his name.

BUT WAIT - is it the mercury (thimerosal) in vaccines? Quote from LifeEnthusiast.com: “Mercury is one of the most toxic elements on the planet much more toxic than lead. 200 parts per billion is the level in liquid EPA classifies as hazardous waste. *FIFTY THOUSAND parts per billion is the concentration of mercury in most thimerosal containing vaccines*”.

Just the facts m’am - **CDC figures** on the exploding autism epidemic

1970 1 in 10,000
1985 1 in 2500
1995 1 in 500
2001 1 in 250
2004 1 in 166
2009 1 in 110
2012 1 in 68
2016 1 in 45
2018 1 in 36

2025 – 1 in 2 projected by MIT *if present trends continue* – see below

Massachusetts Institute of Technology Warning
At Today’s Rate Half of All U.S. Children Will Be Autistic by 2025

BUT WAIT - is it glyphosate and pesticides? An EWG/Red Cross study showed detectable levels of hundreds of manmade chemicals in umbilical cord blood (EWG.org).

June 11, 2014: MIT Research scientist Stephannie Senoff presented slides showing a remarkably consistent correlation between the rising use of Roundup (with its active ingredient glyphosate) on genetically engineered (GMO) crops and the rising rates of autism; while it doesn’t show a direct

correlation it does give researchers plenty to think about, especially considering Seneff's research into the side effects of autism that mimic glyphosate toxicity and deficiencies. Urine testing has also shown that **Americans have 10 times the glyphosate accumulation in their urine than Europeans.** She also says that **most studies are too short to show Roundup's oft-studied effects as a cumulative toxin, one that builds up both in the environment and in our bodies over time.**

According to Seneff, Roundup kills beneficial gut bacteria, allowing pathogens to grow; interferes with the synthesis of amino acids and methionine which leads to shortages in critical neurotransmitters and folate; chelates (removes) important minerals like iron, cobalt and manganese, and much more. Additional chemicals in Roundup are untested because they're classified as "inert," but according to a 2014 study in *Bio-Med Research International* they are capable of amplifying the ill effects of Roundup **hundreds of times over.**

BUT WAIT – is it really all of the above and more yet?

Take mercury or aluminum or yeast or whatever "adjuvant" you want to put in multiple "shots" before a baby's immune system can handle such onslaughts of toxicity. Add bottle feeding so a baby may not get one swallow of COLOSTRUM (made by God) to start a body working right. Will it get mother's milk? For how long? Add toxic levels of glyphosate and other pesticides and herbicides required to make GMO crops work – then add processed foods. Do moms and dads know how to keep their own bodies healthy while making babies? Do doctors? Add more toxicity with tens of thousands of manmade chemicals poisoning bloodstreams by food, water, body care products etc. Who is connecting the dots? Who is teaching God's plan for the wholeness of human life that relates to all the "evil" of our times including HDHD in kids and bad behavior among adults such as mass killings? Is the real problem a simple matter of ignorance + indifference?

America needs to take the profits out of polluting and poisoning the planet and its own precious little ones. Will some reading this please copy and share this message with a pastor or priest so they can learn and teach others how big business *complicit with big government* hurts little ones for the sake of profits? Churches need to get involved! Here's why...

**Jesus - "Let little children come to me, and do not stop them,
for the kingdom of heaven belongs to such as these."**

**For those who want to end the autism epidemic
and heal the sick and poisoning systems of our time...**

Make copies of these two pages and share with families of autistic kids and anyone else motivated to show mercy and "heal the sick" (Luke 9:6). Churches need to get involved in this effort. You may download a pdf master from the home page at www.phpower.org. Also review articles and books on the **LINKS** page of the above website. For easy access, the links in this document are on this page plus other sources for further research and study.
