

Epidemics of MASS KILLINGS, CANCER, AUTISM, PHYSICAL AND MENTAL DISORDERS - where did the idea come from that we could ignore God's plan for the wholeness of life beginning in infancy *and still think we are doing the will of God?*

*"Take care that you do not despise one of these little ones, for I tell you, in heaven their angels always see the face of My Father Who is in heaven" Matt. 18:10*

## **God's Plan for Making a Healthy Baby**

**And for healing cancer and stopping epidemics of many sick things**

by James LeBeau

**AND A LITTLE CHILD SHALL LEAD THEM" Isaiah 11:6**

**HEAL A SICK TREE AT ROOT LEVEL AND ALL THINGS HIGHER UP ARE HEALED TOO;  
GIVE LIFE A GOOD START FROM INFANCY AND THE WHOLE LIFE THAT FOLLOWS IS GOOD TOO.**

A healthy baby needs a **healthy mom and dad.**

A healthy mom and dad need **clean air and water, wholesome food, a clean planet, and some smarts.**

Moms and dads need **church support** for the above

Connect the dots.....every effect ("fruit") has a cause. If we do not teach and support God's plan for healthy babyhood why be surprised at **epidemics of cancer, autism, ADD, ADHD, obese and diabetic kids, teenage suicides, mass murders, depression, violence, old age breakdowns, high insurance costs, too many sick things to list here?** (see other side)

**God's Plan for Making a Healthy Baby** - explains how a good start in life is a major key to solving many seemingly unrelated problems we face as adults, a nation, a planet.

*"Some of the most important information you can get your hands on"*

Marcia Braun, director Senior Center St. Paul Church (ELCA) Racine Wisconsin

"Very good – inspiring – I love it" Laurel K. Cedarburg, Wisconsin

## Important dots often not connected by "experts"

- What is the mother-infant relationship to cancer in old age? Why is a healthy babyhood a blessing for a moms and dads in many different ways?
- What is the mother-infant connection to adult violence, suicides, and MASS KILLINGS by "alienated loners with self-worth issues"? How can we help fix this problem?
- What is cancer's "primary cause" from a spiritual point of view? How did one psychologist treat "terminal" cancer patients and reportedly not lose one in "nine years"? What studies supports this point of view? What about the Bible?
- What is cancer's "primary cause" from a biological point of view per a two time Nobel winner? Why are there thousands of "miracle" cancer recoveries with oxygen/glucose related therapies you don't hear about in the nightly news?
- What are "seven sacred relationships"? Why should all churches teach a "healthy and wholesome" gospel?
