

A man with no arms and no legs

true story by Jim LeBeau

In the mid 1980's while in the lift chair business I was invited to the home of a man on the south side of Milwaukee sitting in a wheelchair with no arms and no legs. He was in the end stages of diabetes experiencing the best modern medicine can offer. I explained that a lift chair could get him up but then what would happen? He didn't have legs to stand on or arms to hold himself up or to transfer. What good would a lift chair be?

At this point I saw a look of hope turn into a sick look of despair. Never have I looked into the eyes of another soul and seen such confusion and hopelessness. About 75,000 limbs are amputated yearly due to a blood sugar problem

A few weeks later – a man called Tom Brown Deer Wisconsin (north Milwaukee area). His leg had been black and blue from the end stages of diabetes. His doctor had told him “you need to let me cut off your leg within two weeks or you will die”. This gentleman took a natural vitamin supplement with chemicals designed by the Creator to support the human body, not a patent medicine made by a human brain to make money. His leg has turned back to a nice healthy pink.

As he talked I could hear the thankfulness, faith, and joy in his voice as he told me his story. Such is the difference a little faith in God's medicine can make. I share this true story every chance I get because it might motivate someone to take the balancing of body systems seriously. Here is how to get more information.

100 and still dancing!

This is a *free download* from “Document Access Page” using link on bottom of home page at www.phpower.org. It introduces the exciting concept of balancing key body systems using natural chemistry designed by God to work with the body much like gas and oil are designed to work with your car. Chemicals made by God (foods, herbs) are not the same as patent medicines (drugs) – the former sourced in mercy, the latter to make money. The systems to balance are: pH; digestion; **blood sugar**; blood pressure; body temperature.

Body and Soul Repair Kit

This goes into detail with priceless information on how to balance the above five key body systems. A hard copy kit is available as well as a digital version in pdf format (46 pages) using link on bottom of **Body and Soul** page at www.phpower.org. *A donation of any amount gives immediate access to the digital version.*

It's wonderful to feel more control over my health with the information you provide".

Joyce Heiser, Wisconsin
